

[Rationale]

Violence = the root of violence

Sexual violence is the most destructive form of violence for a human being. It is at the root of violence in society.

Someone in your group will one day be the victim of sexual violence

Someone in your group will one day be the victim of sexual violence

One in four women and one in six men are affected by this type of violence in their life. Sexual violence is principally perpetrated by men and women against children.

Sexual violence causes enormous damage to all aspects of a victim's life, particularly to their health: its estimated yearly cost to French social security is over 10 billion euros, if you include the social costs.

The vaccination strategy is based on a zero-tolerance approach, including the imprescibility of instances of sexual assault, with the aim of giving victims both the chance to recover and to condemn these actions, regardless of the time elapsed between the act itself and the reporting of the act. This serves to establish an indispensable obligation of care towards those guilty of sexual assault.

ASSOCIATION Sexual Violence Stop

Due to its frequency and the scale of the damage it causes, sexual violence can be compared to a viral outbreak.

SVS

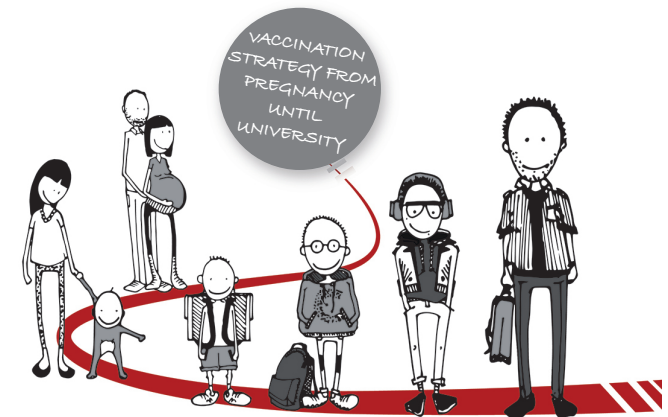

is running a **public health** aimed at **eradicating sexual violence** through a method based on a **vaccination strategy**.

[SVS]

SVS is a national and international association with 3 **development centres** in the Americas/Caribbean, EMEA, Asia/Pacific.

In France there are more than **450 volunteers divided into 13 working groups** (witnesses, doctors and midwives, therapists, educational professionals, sports leaders, ground network, judiciary and legal network, legislators and politicians, administrative relations, communication and press relations, art, fund raising, new technology) and in regional platforms are all working to roll out the policy.

The progress of the project and its actions are assessed annually at the national conference. The content of this is available online on the association's site.
