Lollitots magazine is one of the milder examples. It features preteen girls showing off their genitals in the gynecological style popularized by Penthouse and Playboy. Other periodicals, with names such as Naughty Horny Imps, Children-

Love and Child Discipline, portray

moppets in sex acts with adults or other kids.

The films are even raunchier. An 8-mm.

movie shows a ten-year-old girl and her eight-

year-old brother in fellatio and intercourse. In

another film, members of a bike gang break

into a church during a First Communion

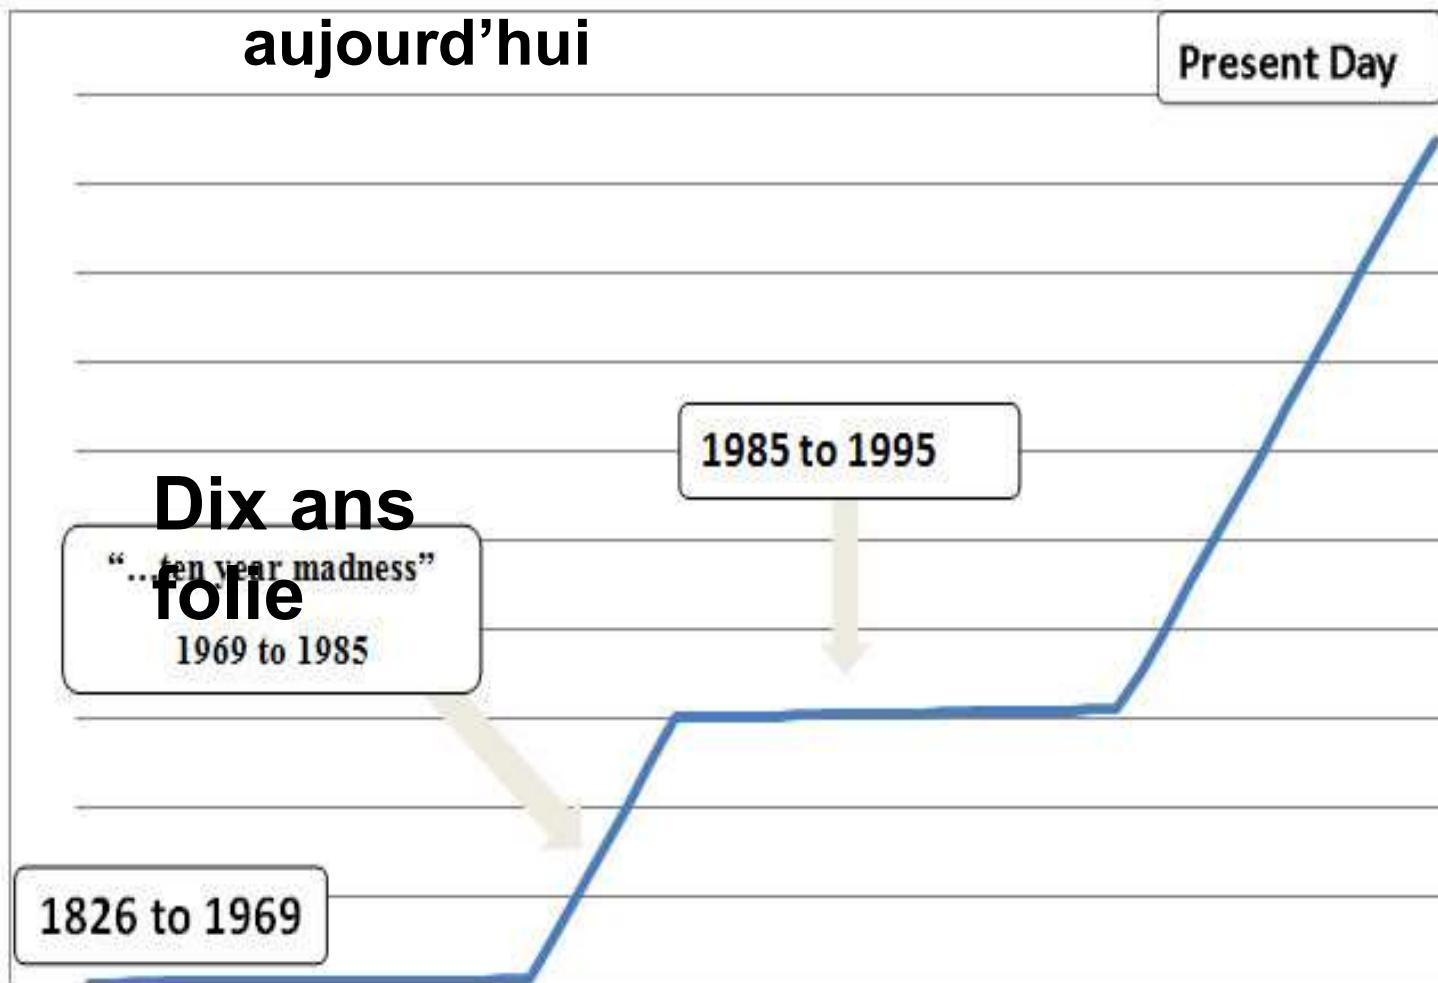

service and rape six little girls.
