SEXUAL VIOLENCE

The journey between two conferences

Dr Violaine GUERIN

People are starting to speak out

Culture of playing things down and resistance

Vidéo

Progress is slow, propelled by citizens

Bande son RATP

SEXUAL VIOLENCE IS SERIOUS!

PHYSICAL AND SENSORIAL TRAUMA with multiple complications

Impact

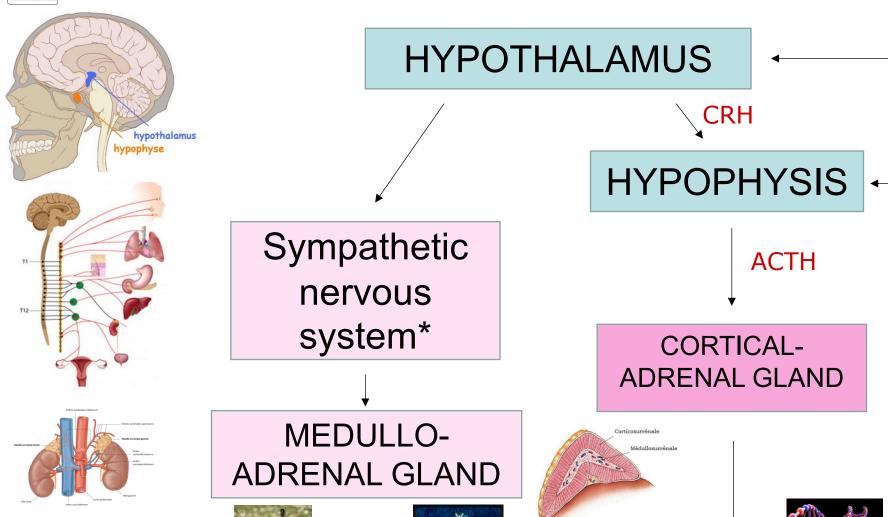

- vaginal
- rectal
- anal

Cluster bomb

How the neuro-endocrine system manages danger

SNA-vital fonctions

Acute danger

Adrenaline, Noradrenaline

Threat, chronic danger

Cortisol

TOO MANY SOMATIC DISEASES STILL IGNORED

3 types of complications, of increasing gravity:

example

- isolated pains
- functional abnomalies
- lesional abnomalies

pelvic pains trouble with periods endometriosis*

Some diseases are «over-represented» in persons who underwent sexual violence

Some pathologies can be cured after appropriate treatment

EPIDEMIC EMERGENCY

1 enfant sur 5 est victime de violences sexuelles

enmafoli

Quelqu'un de votre entourage a, un jour, été victime de violences sexuelles

Quelqu'un de votre entourage a, un jour, été victime de violences sexuelles

one in five un sur cinq

Campagne UN sur CINQ du Conseil de l'Europe contre la violence sexuelle à l'égard des enfants

Contribution du Congrès des pouvoirs locaux et régionaux

Daily mails ... example 25/11/2019

Hello

I am contacting you after learning about your association in a newspaper article:

my 4 year old daughter has told us about bullying and touching of a sexual nature by other children at her kindergarden school.

We are lost as to know what to do, not least because the school does not want to listen. Can you provide support? Yours sincerely

ennafoti

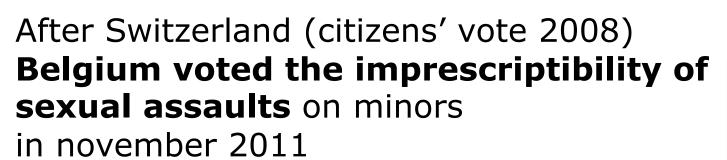

IMPRESCRIPTIBILITY - FUNDAMENTAL

Those who carry out sexual attacks, male or female, do so repeatedly if they are not treated

AS TIME PASSES, THE MORE PROOF THERE IS when we take time to look...

« THE BASICS », increase awareness

PRIORITY +++

Over 3 000 participants in 2019

FORMATION VIOLENCES SEXUELLES

«LES BASES»
